F 404 260 2542
NASDAQ: WWWW

Web.com makes online success
easy for small businesses and
consumers:

“Business has increased by
nearly 25 percent because
clients are returning
often to buy four or five pieces
at a time, instead of just one.”

Jim Ziegler
Ziegler Imported Stone
www.zieglerimportedstone.com

“Our site has already paid for
itself and is now making money,”
says Petty. We are receiving
online orders on a regular
basis from Internet shoppers in
Pennsylvania, California, Florida
and other states.”

Faye Christie
Faye's Home Accent
www.fayeshomeaccents.com

“The site was incredibly easy
to use, even for a novice. I'm
thrilled with how quickly I was
able to upload photos and
music files, create links to
other sites and to copy & paste
text from existing documents,
rather than suffer through re-
keying everything. When the
time comes, I can quickly and
easily make edits and add new
information to my site.”

Kurt Willett
New York, NY

Our award winning Site Builder tool: The fastest, easiest way to get on the web.

Site Builder from Web.com is an award-winning tool that makes it quick and easy to create a successful web presence, even if you don't have any design or technical experience. In fact, over 4 million Site Builder websites have been built by people just like you! Our point-and-click technology and easy-to-use toolbars allow you to design and publish a website, market that site to attract visitors, and easily maintain it with fresh, dynamic content – all with just the click of a mouse. With Site Builder's robust suite of built-in features, you'll have everything you need to establish a truly powerful presence on the web.

No time? Let our design team build it for you.

Whether you're just getting started online, need to upgrade your existing site, or are ready for a fully functional eCommerce solution, Web.com can design a professional website that helps you attract qualified prospects and convert them into paying customers. Our award-winning Web design specialists have created dynamic eCommerce websites for thousands of small businesses in virtually every industry. With our hands-on consulting and a range of plans to suit the needs of every business, we make it easier than ever for you to sell online successfully.

A plan that's right for you.

Do It Yourself plans are great if you're just getting started online. Our Site Builder tool makes building your own website as simple as using a word processor. Plus, with more than 300 design templates and the industry's most complete suite of dynamic content features, you'll have feature-rich online storefront to sell products and process credit card transactions right from your Web site.

We Do It For You plans are ideal for business owners who don't have time to build a website on their own, or who want to take their online presence to the next level with a professionally built website. Our plans offer all the features you need, plus one-on-one consultation from an experienced Web.com designer in addition to a professionally-built website. You'll get all the necessary tools and training to ensure you can manage your website on your own after its published.
