

Network Solutions Renews Contract with Website Pros to Continue Small Business Web Services

JACKSONVILLE, FL - April 8, 2003 - Network Solutions, the leading provider of digital trust services and Website Pros, a leading provider of online solutions have signed to continue their partnership to provide comprehensive Web packages for small business clients.

The two companies teamed up to give small businesses the opportunity to launch an internet Web presence, or make enhancements to their existing websites. Under the agreement Website Pros will continue to design, build, and host website packages, which include:

- A five-page website consisting of three content pages, a contact page, and a map page
- An enhanced listing in the Citysearch directory
- An enhanced listing in Switchboard's Yellow Pages
- A featured listing in the Yahoo! Yellow Pages
- Search engine registration and submission

A full line of custom Web services geared towards helping small businesses grow, including e-commerce solutions, custom Web design, and internet marketing services will also be available.

Small businesses that currently have a website can continue to take advantage of the robust internet advertising package offered through Website Pros and Network Solutions, which gives existing websites a greater visibility online and helps drives traffic to these websites.

"Our original venture was a great success. We are pleased to continue our partnership with Network Solutions to provide the Web solutions small businesses need for continued growth," said David Brown, CEO of Website Pros.
