NETWORK SOLUTIONS LIGHTS THE TORCH WITH GOLDEN DOMAIN REGISTRY OFFER

- Limited time offer for 50 percent price reduction on domain registrations
- Customers can pick multi-year options; Discounts apply to *all* domain extensions
- Visit [Network Solutions](#) and use the code GOLD50

JACKSONVILLE, Fla., Feb. 12, 2018 -- [Network Solutions](#), a [Web.com company](#) (Nasdaq:WEB), has announced the launch of a historic sales promotion to help its customers reach for the gold with Olympic-sized savings on domain registration.

Aptly referred to as, "The Scores Are In," this limited time offer builds on the global fervor for the [XXIII Olympic Winter Games](#). With customers in more than 90 countries around the globe, Network Solutions is a household name within many of the countries that have sent athletes to the games.

"With nearly 40 years of experience in the domains industry, we know that the months of January and February -- and the Winter Olympics in particular -- drive many businesses and entrepreneurs to build, innovate and seize creative inspiration," said David Brown, chairman, CEO and president of Web.com.

The Winning Event

Watching the Olympics can provide viewers around the world with inspiration for creation, innovation and the achievement of dreams, so Network Solutions has made the steps for getting 50 percent off the annual cost of a domain registration almost as quick as a downhill skier:

- Visit [Network Solutions](#)
- Use Network Solutions' domain name search tool to find an available name
- Enter the code GOLD50

Just as in the Olympic events, speed brings success -- and it could make all the difference in helping customers get the full value of this offer. This is a limited time offer, so finding the domain name you always wanted is truly a race to the finish line.

Knowing that its customers have to be flexible and nimble to the needs and opportunities in the market, this promotion gives customers the freedom to choose 1-3 year contract periods and is open to any domain extension*.

“There are very few limits on this promotion, so our customers’ new opportunities are nearly limitless. We know that the next ‘snowboard.guru’ is out there and ready to jump on a new idea,” added Brown.

The Scores Are In

When looking to buy a website domain, business owners put a high premium on both speed and reliability for the hosting provider. Network Solutions consistently scores with load times under 3.5 seconds. A few proven examples of those on the Network Solutions team are listed below:

While speed and reliability are crucial to helping small businesses score big, Network Solutions has also had decades of experience in learning [what customers expect in a place to buy a domain name](#).

- Flexible hosting solutions
- [Custom websites by Web.com](#)
- SSL Certificate Authority
- [Malware protection powered by SiteLock Defend®](#)
- 24/7 Real Person Customer Support
